IT is estimated that the state of Nevada will, in a few years, have no population, for as her mines fail her population dwindles. She is now credited with 60,000 people.

AN exchange notes it as a rather curious circumstance that Thanksgiving comes just before congress meets, and Lent comes after it has been in session a couple of months.

THE great Irish giant and the equally great German giantess were united in the holy bonds of matrimony at Pillsbury on Tuesday, and the papers of the Iron City speak of it as "a big wedding."

Kirby School.

The following is a report of the kirby school for the month ending November 16th: whole number enrolled, 40; number males 17, number females 24, grand total number days, 315, average daily attendance 37. In the monthly examination there were 9 pupils who made 100 in arithmetic, 1 in writing, 4 in spelling, 4 in grammar, 1 in geography. Belle Stuart made the highest average in the advanced grade, 99 1-3. Mary Scott in the intermediate grade, 92 1-5. Martha Scott in the primary grade, 92½. Number of visitors during the month, 3. There were 18 pupils who did not miss a day during the month. E. B SMITH, Teacher.

Niantic

They are laying the foundation for the new track scales at the coal mine. There is a movement on foot to erect a Catholic church at this point. About $1400 has been vouched for already, and it is to be hoped the enterprise will be a success. The "select dance" on Monday night was quite a success as we understand, but as we were not honored with a card we can't speak as one having authority. Miss Lulu Ford, who is in Springfield under treatment for acute bronchitis, is reported by her physician to be improving finely. There seems to be a general fault finding about our school teachers, in regard to making corrections of the pupils, and it seems very unjust in parents to chastise the teachers so severely sometimes. If there are any complaints necessary, the directors are certainly the ones to complain to the principal. Mr Lockhart is a gentleman in every sense of the word, while his able assistants Miss Spencer and Mrs Greenman are both perfect ladies, and the public may feel assured that their sole intention is to labor for the advancement of their pupils. We hope to have perfect harmony in the future. Mrs. Dr Rice returned home Monday, after a pleasant visit with friends at Bearsdale. Rev. Cal Lockhart delivered an able discourse to a large and appreciative audience at the M E Church. The scholars of our schools contemplate giving an oyster supper soon, to swell their library fund. Let all turn out and encourage the move. The "Lime Kiln Club" held its annual meeting at Paradise Hall Saturday night. Present Bro Gardener Rev Primrose, Trustee Pullback and Serone Toots and adjourned with unfinished business, which was laid over till next meeting.

We will give a pen sketch, of Niantic in the near future. Subscribe for the REVIEW and get it in full. OBSERVER.

THE MORAL OF IT.

We may moralize as much as we please about pain; but the fact is, that we don't like it while it lasts, and that we want to get rid of it as soon as we can. Whether caused by rheumatism, gout, disordered liver, weak nerves, irregular kidneys, bad blood, or anything else that is just the reverse of what it should be, the sooner it is out of the system the happier we are. Whether pain is the result of imprudence or of accident, or is sent as a punishment for our sins, may be a nice question for the philosophers to argue; but people who are suffering want first to be rid of the pain, after which those who are fond of argument may argue the matter to their hearts' content.

Above all theory, argument, and philosophy, comes the delightful fact that BROWN'S IRON BITTERS drives pain away. Sufferers run no risk in trying this medicine, the only compound containing iron which carries no mischief with it. Those who have used it will tell you so; and you can try for yourself by buying a bottle of the nearest druggist.

KING CAUCUS.

Speculation Regarding the Coming Conferences of Senators and Congressmen of Both Parties.

No Opposition Expected to Republican Reorganization of the Senate.

Claims of Various Speakership Candidates—A New Argument Against Carlisle.

A Request from Some Republican Members that Mr. Kelfer Refuse the [illegible] Caucus Nomination.

Anti-Session Gabble.

LATEST FROM THE SEAT OF WAR.

WASHINGTON, Nov. 21.—It is expected that a reorganization of the Senate will take place some time in December without opposition on the part of the Democrats. They resisted the general change of officers and employes when parties in the Senate were evenly balanced, and the Republican majority was obtained by an arrangement with Senator Mahone, but the conditions have now changed, and the Republicans have a majority without counting the two Virginia Senators, both of whom will probably vote for the Republican caucus nominees. The candidates whom the Republicans attempted to nominate were Mr. Gorham for Secretary and Mr. Riddleberger for Sergeant-at-Arms. The last named gentleman has since been elected a Senator by the grace of Mr. Mahone, while Mr. Gorham remains out in the cold. It is understood that he still aspires to the vacant Secretary ship, but the most reliable Republican opinion here is that he will have to fight his battle over for the nomination by the caucus, with greater obstacles in his way than there was in the first instance. It is acknowledged that Mr. Gorman was a very efficient Secretary during his official term, but at least some of the Republican Senators think it would be politic to take up some new man. The present Democratic employes of the Senate owe their continuance in office to the independent and conservative course of Judge David Davis, who held the balance of power between the two parties, and used it to compel a fair division of patronage—the Democrats retaining the offices, and the Republicans taking possession of the committee clerks, and minor places, and control of the committees.

Now the Republicans will take possession of all of the offices and legislative machinery of the Senate, and will have it in their power to checkmate any decisive legislation in the direction of tariff reform that may be originated by the Democratic House of Representatives. This fact is used with considerable force as an argument against the selection of Mr. Carlisle or any other low-tariff man for the Speaker's chair. It is not denied, however, that Mr. Randall represents a minority of the party on the tariff question, and his opponents claim also that his tariff views are not those of a majority of the people of the whole country. Assuming this to be true, the anti-Randall men say a man ought to be nominated for Speaker who would frame the committees with a view to carrying out the best and most widespread tariff views of the National Democratic party, and the House ought to do its duty without reference to what the Republican Senate might do.

There is still insufficient material here to occupy the whole attention of those who are canvassing for the several aspirants for the Speakership, but they are quite active in working upon what they have at hand, and they seemed disposed to feel the pulse of each new-comer to ascertain whether it would be practicable, under certain contingencies, to form a combination to defeat Randall.

It has been positively asserted that one of Mr. Randall's friends has possession of a private letter, addressed to a member of Congress, in which Mr. Tilden says that, in his opinion, wisdom and policy would alike point to the nomination of Mr. Randall for the Speakership as the most prudent nomination that could be made in view of the Presidential contest of 1884.

Whispers of the presence of the Tilden influence in this form have been current for some days, and while no man has been found who will avow that he has seen the letter, many say without hesitation that they have no doubt that Mr. Tilden prefers Mr. Randall. The ex-Speaker himself, when questioned, said: "I have no knowledge of such a letter. Mr. Tilden does not write his letters." Then after a pause he added with a smile: "I think I know whom he is for."

It has been claimed that the Pennsylvania would have 107 votes on the first ballot, but the latest estimate received from his managers is that if Mr. Cox should be withdrawn Mr. Randall will have 83 votes, distributed as follows: Maryland, 4; Virginia, 8; North Carolina, 5; South Carolina, 5; Georgia, 2; Florida, 1; Texas, 2; Louisiana, 3; Mississippi, 3; Alabama, 4; Tennessee, 4; Missouri, 5; Arkansas, 2; Pennsylvania, 11; New Jersey, 5; New York, 14; Ohio, 10; Indiana, 2; Connecticut, 3; Massachusetts, 1. The friends of Carlisle dispute the correctness of this estimate, and claim the votes from Florida, Tennessee, Mississippi, New York and Ohio that have been claimed for Randall. They assert that, with Cox out of the race, nearly all of Cox's votes will go to Carlisle and make his ultimate success certain; or, at any rate, that either Carlisle or a Western man will be nominated. Mr. Cox's friends say they are now sure that he has solid fighting-ground, and they will either nominate him or name the man who will be chosen by the caucus. It is plain that all estimates that have been furnished are inflated, and that no reliable opinion as to the outcome can be formed until the advent of a larger number of members and further progress of the canvass shall have given more definite shape to the canvass.

NEW YORK, Nov. 21.—The Hackensack (N. J.) *Republican* contains an interview with William Walter Phelps, member-elect of the next Congress, in which he gives expression to the general wish among the Republican members of the next House that ex-Speaker Keifer should refuse to be a candidate for the empty honor of a renomination. It seems Phelps has written to Keifer at the suggestion of members of different parts of the country, some of whom have served before, and others who enter Congress for the first time. They believe that their party will be strengthened by taking a new departure, and that the House of Representatives is the best place to begin a new movement in the selection of new names for all positions. In this interview Phelps expresses the opinion that the ex-Speaker, having the welfare of the Republican party at heart, will not fail to recognize that its success depends upon united action, which can only be obtained by mutual, full and friendly concessions and the avoidance of any action that will tend to keep up the disagreements of the past two or three years. Kiefer has not yet replied.

A Protest Against Minister Lowell's Election to the Rectorship St. Andrews' University.

A Convicted Murderer Defies the Government.

GENERAL OLD WORLD INTELLIGENCE.

LONDON, Nov. 21.—Charles William Siemens, scientist, engineer and electrician, died from rupture of the heart, aged sixty-three years. The deceased ten days ago fell. His physician ordered complete rest, and he was apparently recovering until Monday, when he rapidly sank. The Council of the Society of Arts postponed the opening of their meeting on account of the death of Siemens.

The polling for Lord-Rector of St. Andrew's University will take place next Thursday. James Russell Lowell and Right Hon. Edward Gibson (Conservative), member of Parliament for Dublin University, have been nominated. A student has lodged a protest against the nomination of Lowell, on the ground that he is an alien, and therefore ineligible.

Earl Selbourne, Lord High Chancellor, having been questioned whether Mr. Lowell is eligible to the Rectorship, stated that, in his opinion, there is nothing in the Scottish University act of 1858 which precludes the election of Lowell.

PARIS, Nov. 21.—In all probability hostilities between France and China will break out within a few hours.

The report that the Chinese have evacuated Sontay and Bac-Ninh is not confirmed and not believed.

LONDON, Nov. 21.—A Vienna correspondent says he learns from a reliable Chinese source that the Government at Pekin has sent a circular to eighteen Viceroys pointing out the gravity of the political situation, and expressing a firm resolution to oppose to the utmost the French invaders. Therefore, it says, the services of 120,000 men will be required. The Viceroys are enjoined to forthwith recruit men for the force desired by the Government, and to provide necessary uniforms and provisions.

PARIS, Nov. 21.—Admiral Courbet, commander of the French forces in Tonquin, telegraphs that the last body of troops sent to him have arrived. He does not ask for further reinforcements.

BERLIN, Nov. 21.—The Prussian Diet was opened by Von Puttkamer, Minister of the Interior. The speech from the throne set forth that the financial situation had improved, and that the working of the railways by the State had resulted in the accumulation of a considerable surplus. The new budget does not make any claim upon the credit of the State, but a certain disproportion continues in regard to the resources of the Treasury as compared with the demands upon it, arising from the pressure of communal charges and the inadequacy of the salaries of public officials. The speech announces that a bill taxing incomes derived from property, and of measures for the further purchase of railways by the State will be presented.

PARIS, Nov. 21.—Eighteen workingmen were drowned Monday at Donnamenez, in the Department of Finisterre.

DUBLIN, Nov. 21.—In the Poole-Kenny murder trial, after instructions from the court the jury retired with a verdict of guilty, as indicted. The court pronounced the sentence of death upon the prisoner. Poole, in an address to the court, admitted that he was a Fenian, cursed England, and called for "three cheers for the Irish Republic."

Death of General A. C. Dodge.

BURLINGTON, Ia., Nov. 21.—General Augustus C. Dodge, one of the first settlers of Iowa, and one of Burlington's most honored citizens, died in this city at four o'clock Tuesday afternoon, after an illness of four days, at the age of seventy-one years. The announcement, though not entirely unexpected, was a severe shock to many in the community who had not been aware of the dangerous character of the disease, and evoked a general expression of sorrow from all classes.

General Dodge was the first United States Senator from Iowa, and was Minister to Spain under Buchanan. He was a candidate for Governor of Iowa in 1859 against Mr. Kirkwood, and was one of the foremost men in the State during the fifty years of its existence. He had been identified with its history, and at the semi-centennial celebration in this city, in June last, of which he was President, he was one of the very few present whose residence dated back half a century. Probably no man in Iowa was more widely known or distinguished for his nobility of character, and for his fine social qualities and courtly manners. In this city he was universally beloved, and his death occasions universal sorrow.

A Fearful Reckoning.

MILWAUKEE, Wis., Nov. 21.—The *Sentinel* publishes a tabulated statement of the loss of life and property in the series of gales, November 11 to 17, showing a loss of fifty-five and sixty vessels. Only eleven of the latter, representing about 6,000 tons and a value of over $300,000, have been released. Twenty-six vessels, representing 9,000 tons and a value of $400,000, are total losses. There are still many vessels which were out in the gales unheard from.

Sherman and Porter.

NEW YORK, Nov. 21.—A journalist from Indiana, now in this city, says: "On the Republican side of the house there is an unquestionable looking toward General Sherman as the candidate. How thoroughly rooted the sentiment is, how much of it is enthusiasm, which will wear off in a short time, or how much of it is based upon known and definite qualities in the General's character and purposes, the fact still remains that Sherman's name is received with great favor. The name of Governor Porter is usually allied with Sherman's, although there are not a few who fix it 'Sherman and Lincoln.'"

Rev. Father Wilds'
EXPERIENCE.

The Rev. Z. P. Wilds, well-known city missionary in New York, and brother of the late eminent Judge Wilds, of the Massachusetts Supreme Court, writes as follows:

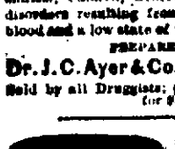

"75 E. 54th St., New York, May 16, 1882.
MESSRS. J. C. AYER & Co., Gentlemen:
Last winter I was troubled with a most uncomfortable itching humor affecting many parts, especially my limbs, which itched so intolerably at night, and burned so intensely, that I could scarcely bear any clothing over them. I was also a sufferer from a severe catarrh and catarrhal cough; my appetite was poor, and my system a good deal run down. Knowing the value of AYER'S SARSAPARILLA, by observation of many other cases, and from personal use in former years, I began taking it for the above-named disorders. My appetite improved almost from the first dose. After a short time the fever and itching were stilled, and all signs of irritation of the skin disappeared. My catarrh and cough were also cured by the same means, and my general health greatly improved, until it is now excellent. I feel a hundred per cent stronger, and I attribute these results to the use of the SARSAPARILLA, which I recommend with all confidence as the best blood medicine ever devised. I took it in small doses three times a day, and used, in all, less than two bottles. I place these facts at your service, hoping their publication may do good.
Yours respectfully, Z. P. WILDS."

The above instance is but one of the many constantly coming to our notice, which prove the perfect adaptability of AYER'S SARSAPARILLA to the cure of all disease arising from impure or impoverished blood, and a weakened vitality.

Ayer's Sarsaparilla

cleanses, enriches, and strengthens the blood, stimulates the action of the stomach and bowels, and thereby enables the system to resist and overcome the attacks of all *Scrofulous Diseases, Eruptions of the Skin, Rheumatism, Catarrh, General Debility*, and all disorders resulting from poor or corrupted blood and a low state of the system.

A UNION OF GIANTS.

Wedding of Patrick O'Brien, Height 7 Feet 11 Inches, and Miss Christina Dunz, 7 Feet 10 Inches.

The Ceremony Witnessed by an Enormous Assemblage of Invited Guests, Including Many Notables.

The Bridal Cake a Triumph of Culinary Art—Dimensions of the Bride's Trousseau.

A Marriage of Mammoths.

IN INTERESTING EVENT.

PITTSBURGH, Pa., Nov. 21.—Patrick William O'Brien, the Irish giant, and Christina D. Duntz, the German giantess, were married in this city at an early hour. The ceremony was performed in the German Evangelical Church, on Smithfield street, by Rev. Frederic Ruoff, and was witnessed by an immense concourse of people, including Mayor Lyon and the Council of Pittsburgh; Mayor Peterson, of Allegheny; Judge White, John McCullough, Margaret Mather, the Aztecs, dwarfs, Indians, and the snake-charmer. Outside the church the crowd gathered in such numbers as to obstruct traffic in spite of the efforts of a large force of police. Mr. O'Brien wore a full-dress suit, and a medal presented to him by the Land League ornamented his breast. The bride wore a wreath of orange blossoms and a veil that covered a superb dress of white satin. The bride's dress was from designs furnished by Worth. Eighty-five yards of material were required for the dress and ninety-eight yards of Spanish lace for the trimming. In her hand she held a bouquet of enormous size.

The bridal party was driven to the church in an open carriage drawn by four gray horses. After the service the bridal party drove at once to Harris' Museum and held a public reception. The wedding cake is the largest ever made, measuring nine feet in circumference and three feet in thickness. A giant loaf of bread, five feet in length, was presented to the couple. This was the first marriage of giants in America, and the second in the world. The combined height of the bridal pair is fifteen feet three inches, and they tip the beam at 549 pounds. The wedding ring weighed seventeen pennyweights, and was five inches in circumference.

At ten p. m. a grand wedding feast was given in honor of the couple at the Hamilton House. About a hundred invited guests were present. During the evening they received a number of costly presents. Congratulatory telegrams were received from Chang, the Chinese giant; Mr. and Mrs. P. T. Barnum, Adam Forepaugh, Millie-Chi-thie, the two-headed lady; Colonel Goshen and others.

The proprietors of the Hamilton House were put to considerable trouble to prepare a suitable couch for the newly-wedded giants. It was made up of two beds placed sidewise, foot and head boards being improvised at the open ends. Special mattresses, sheets, blankets and pillows were made for the couch.

Mysteriously Murdered.

MARSHALL, Mich., Nov. 21.—Byron W. Sibley, the day operator of the Michigan Central Railroad at this place, was found dead on a side street with a bullet-hole in his right temple. His money and valuables were undisturbed. It is clearly not a case of suicide. The murder was probably committed before midnight. The deceased was twenty-two years old, of excellent habits and reputation, and very popular among his acquaintances. The officers are searching for clews to the murderer.

The theory is that a married man with whom Sibley had had a misunderstanding, and believed himself wronged, shot him. This theory is strengthened by remarks made by the victim some days ago.

Want a Reprieve for Chisholm.

NEWARK, N. J., Nov. 21.—A petition signed by Congressman Fiedler, Mayor Lang, Monsignor Doane, Father Toomey, Judges Henry and Fort, and other leading residents, has been sent to the Governor, asking him to reprieve Chisholm. Leon Abbett, Governor-elect, also sends a letter favoring the request.

Governor Ludlow has informed the petitioners that whatever feeling he might have for the prisoner he still had an oath to respect, and could not conscientiously grant a reprieve or favor a commutation of sentence.

A Suit Involving $20,000,000.

SAN FRANCISCO, Nov. 21.—A suit involving $20,000,000 was commenced by the widow and heirs of John Bowie Gray against the Quicksilver Mining Company at New Almada, Cal. Gray, one of the three original proprietors of the mine, died in New York in 1861. The action is based on alleged fraudulent administration of the property by Robert J. Walker, formerly Secretary of the Treasury, a partner of the deceased Gray, and till lately the chief representative of the company.

A Test Suit Dismissed.

NEW YORK, Nov. 21.—Judge McAdam, in the City Court, rendered his decision dismissing the complaint in the case of Lizzie Hannon against the Bridge Trustees for injuries sustained in the panic on the bridge on Decoration Day. He said that, while it is true that any individual who sustains an injury by the negligence of a public officer has his remedy in law, yet public officers are not liable for the misconduct or malfeasance of such persons as they are obliged to employ.

Porter Declared Not Guilty.

NEW YORK, Nov. 21.—The jury in the case of William Porter, on trial for the murder of John Walsh in "Shang" Draper's saloon the morning of October 16th, brought in a verdict of acquittal and Porter was discharged by Judge Davis.

SIGHT RESTORED BY BLOWS.

How Mr. Maybee Was Benefited by a Murderer's Bludgeon.

BROOKLYN, Nov. 21.—The excitement over the murder of Mrs. Lydia Maybee and her daughter at Brookville, L. I., continues unabated. A report that Mr. Maybee had died from his injuries, as reported, was without foundation. The fact that Mr. Maybee has partially recovered his sight is exciting much interest in the medical profession. The doctors generally agree that the blows Mr. Maybee received at the hands of the murderer acted on the optic nerve and restored sensibility of sight. John McCormick, the tramp who was arrested here Monday night as the murderer of the Maybee family, was taken to Brookville. The police have ascertained that he has been confined in the Flatbush Insane Asylum as a patient. McCormick was positively identified at Brookville as the tramp seen there on Saturday. Doyle exhibited great nervousness when taken out of jail at Roslyn, and asked the officer to protect him from the excited crowd. He was taken into the room where Garrett Maybee was sitting and told to say "me" and "I will kill you." He did so. Mr. Maybee recognized the voice as that of the man who spoke to him on the day of the murder. McCormick's shoes correspond exactly with the casts taken of the footprints around the Maybee barn.

THE IRON TRADE.

Leading New Yorkers Asserting There is Nothing in the Present Scare.

NEW YORK, Nov. 21.—Leading representatives of iron interests scout the idea of a panic, and assert that there is nothing in the present scare. Since last spring many furnaces have been blown out and numerous rolling mills have put on single turn. A majority of the nail mills have refused to overstock the market with their product. In regard to steel rails, only those that can make rails at thirty-one dollars can afford to run regularly, and the others will have to stop, or run only at intervals, until the demand increases. It is believed that the production of all leading iron and steel products will be no greater than the demand and prices will recover when this point is reached. A boom during the early part of next year is therefore not improbable. During the present month three furnaces in Pennsylvania and one each in New York, Georgia, Alabama and Michigan will blow in, all of charcoal, while in New York and Pennsylvania there will be two anthracite, and in Ohio, Alabama, Pennsylvania, West Virginia and Tennessee there will be nine bituminous, in all nineteen furnaces, which will blow in this month, while the furnaces which will blow out will be six charcoal, three anthracite and six bituminous.

A Bogus Diploma Factory.

CINCINNATI, Nov. 21.—A bogus diploma factory was discovered here Tuesday. It is located in North Fairmount, a city suburb on the Cincinnati, Hamilton & Dayton Railroad, just beyond Brighton Station. The diploma factory is called the "American Health College," and professes to teach the "vitapathic" system of practice. Its proprietor and manager writes himself "Prof. John Bunyan Campbell, M. D., V. D.," and those receiving diplomas from his gracious hand are not only authorized to practice medicine anywhere in the United States, but are also made ministers of the gospel. Dr. Campbell does not comply with the State law, in that he sells to whomsoever will buy his printed questions and answers for the sum of one hundred dollars, which fits the student to practice, and if the student wants one of his "grand diplomas," which fits him to both practice medicine and preach the gospel, he can get it by paying fifty dollars more. The County Prosecuting Attorney has taken the case in hand, and the matter will be taken before the Grand Jury at once.

A Pretty Diamond Thief.

NASHVILLE, Tenn., Nov. 21.—Mrs. A. F. Lincks, alias Rose Fink, alias Myers, alias Miller, expert diamond swapper and sneak thief, was brought here from Louisville Tuesday by Detective W. Hoover, of that city. She is supposed to be the celebrated Rosa Malhouse, sister of a fly thief, Julius Malhouse, of Chicago. She is rather pretty, and has a German-Jewish appearance. She lately victimized jewelers in all of the principal cities South. She has turned her tricks in Atlanta, Augusta, Charleston and New Orleans.

Pinkerton's Men Guarding the Mines.

IRON MOUNTAIN, Mich., Nov. 21.—About fifty armed detectives, belonging to Pinkerton's Chicago Agency, have arrived here and are preparing to defend the property of the Menominee Mining Company, which is endangered by the strike of 1,000 miners. J. H. Sandyke, the President of the company, is also here. The striking miners have lately shown great violence, even threatening to destroy the mining property by breaking the pumps, so as to allow the water to flow in, and thus ruin the mine, as the iron ore is soft.

Mooney Gets a New Trial.

JOLIET, Ill., Nov. 21.—Convict Michael Mooney, against whom a verdict of guilty was recently found on the charge of murdering his cell-mate, John Anderson, has been granted a new trial. Judge Stipp, in granting it, gave as his reason for doing so that he had erred in not admitting shorthand evidence describing Anderson's wounds, dictated by expert physicians for the defense.

Electing a Congressman.

RALEIGH, N. C., Nov. 21.—The election for a Congressman for the First North Carolina District, to fill the vacancy caused by the death of Walter E. Pool, was held Tuesday. The returns from Pasquotank, Pitt, Beaufort and Martin Counties indicate the election of Thomas G. Skinner, Democrat.

Charged with Embezzlement.

KALAMAZOO, Mich., Nov. 21.—L. M. Fumford, a dealer in buggies and agricultural implements here, who failed a few weeks ago, has been arrested on a warrant sworn out by D. M. Osborne & Co., of Auburn, N. Y., who charge him with embezzling $400.

Down an Elevator Shaft to Death.

ST. LOUIS, Nov. 21.—Mike Tierney, aged thirty, a native of Toledo, O., fell from the fourth story of the Planters' House, down the elevator shaft, and was instantly killed. The door had been left open.

Death on the Rail.

TORONTO, Ont., Nov. 21.—A train on the St. Martin's & Upham Railway jumped the track near Hampton. Three cars rolled over an embankment into a ditch. Sixteen passengers aboard were more or less injured, some fatally.

LOTTERY MEN CONVICTED.

Two Chicago Agents Come to Grief in the Federal Court—The First Conviction Ever Secured Under the United States Law.

CHICAGO, Nov. 21.—The United States District Court and Judge Blodgett were taken up all day with the four lottery cases made out against the principal dealers in lottery tickets in the Northwest by the United States authorities in this city. These four cases are against H. H. Shapley, Fred Frby, James H. Cook and B. Frank Moore.

From the evidence adduced in Shapley's case it clearly appeared that the defendant had figured in the advertisements and circulars as Shipsey, and that he was the principal Western agent for the "Little Havana" lottery, numerous instances being proven in which the sending off of tickets, etc., of this concern was traced to him. The law on the subject is found in section 3,894, revised statutes, and, being very plain the jury returned a verdict of "guilty" after a deliberation of but a few moments. The next case taken up was that against Fred Erby, agent for the Henry College (Kentucky) lottery scheme. Though the defendant was legally well represented, one of his attorneys being a legal light of the Kentucky bar, Mr. Sanders, he was likewise found guilty. The evidence was virtually the same as in the case of Shapley. During the afternoon the remaining two cases, one against B. Frank Moore, and the other against James H. Cook, were taken up and disposed of. Moore, though being the Chicago agent of the Louisville State lottery, was not backed up by that wealthy and powerful organization. Sentence has not yet been pronounced in any of these cases. The law decrees a maximum penalty of $500 for each offense. General Leake, the United States District Attorney, said: "If these parties again violate the law against lotteries I shall raise the point of accumulation against them. But just now we have only attempted to and have proven one offense. These are the first lottery cases ever tried in this country."

A Desperate Fight with Burglars.

NASHVILLE, Nov. 21.—Monday night at ten o'clock a most desperate attempt was made to burglarize the house of J. J. Garrett, near Clarksville. Two men broke a window with a fence rail. As they entered the house Garrett seized his bird-gun and fired both barrels, killing one instantly. He then engaged in a hand-to-hand fight with the other. Garrett fired several times and desperately wounded him in the left lung. The burglar crawled under the bed. Mr. Garrett dragged him out and threw him from the window. It is thought by some that he, too, is dead somewhere in the neighborhood. After all was over Mrs. Garrett went in her bare feet about half a mile to notify a neighbor. The officers are scouring the country with shot-guns.

Fifty Years a Priest.

NEW YORK, Nov. 21.—The fiftieth anniversary of the ordination of Cardinal McCloskey will be celebrated on the 12th of January next. There will be a grand service in the Cathedral, a dinner and the presentation of a purse and an address.

A sure Thing.

There are few things in this world that are positively certainties, and the only way to convince ourselves that anything we hear is a fact is to investigate too for ourselves, and when anybody takes the trouble to compare J. W. Baker's prices with others it is a sure thing they will be convinced that he is selling good shoes at low prices. n1d&w

DAVENPORT, IOWA, June 1st.

TO WHOM IT MAY CONCERN:—
I wish to state that I had Heart Disease for eight years, growing steadily worse. It finally got so bad that I was forced to quit working, and so sold my farm and equipments. Having just suffered from a severe attack, another of which I would not expect to outlive, I began treatment under Mrs. Dr. Keck, hoping at least that she might prevent their coming back. She has done more: I am now well and at work with the Rock Island lumber company. I heartily give Mrs. Dr. Keck the fullest endorsement.
Respectfully, JOHN MARTIN.

EDITOR TRANSCRIPT:—My wife has been under treatment with Mrs. Dr. Keck, in this city, and has become so much benefitted, that I wish to state the same for the benefit of others who may need help.
Mrs. Busch was sick for three years. Latterly very bad. I, and all her relatives thought she had consumption. Under Mrs. Dr. Keck's directions she has recovered from all her ailments; has gained twelve pounds in flesh, and for a thousand dollars I would not have her go back to where she was at the beginning of treatment two months ago. I would gladly give notice about her case. Yours, etc. DANIEL BUSCH.
Peoria, Ill., 1413 South Washington St.

BLOOMINGTON, ILL.

MRS. DR. KECK:—
Dear Madam:—For the benefit of the afflicted I deem it my duty to make the following statement in reference to my son, Morris F. Johnson. From the time he was two years of age he has been afflicted with catarrh in the head, causing almost constant discharge from the ears. I applied to several physicians for treatment, but they all said nothing could be done for his relief. The only hope was that he would outgrow it. About one year ago he took a violent cold, seriously affecting his lungs, his hearing in one ear being almost entirely gone, and constant discharge from both ears. As a last resort, in last June I applied to you for treatment, having but little hope of benefitting his hearing or general health. I am happy now to state that the discharge from his ears has entirely ceased, his hearing is as good as ever it was, his health greatly improved, having gained twenty-five pounds in the last six months.
You can get further information by calling on or addressing me at 619 Main street.
Respectfully, S. F. JOHNSON.

[From Peoria Journal.]
PEORIA, ILL., April 11.

EDITOR JOURNAL:—In the interest of afflicted humanity, and in recommendation of the excellent treatment given by Mrs. Dr. Keck in this city, to patients with chronic affections, I would like to state in your paper the benefit received at the hands of that lady, at her Peoria office, by my ten-year-old son, Willie. When five years of age he became the victim of malignant scarlet fever, barely escaping with his life, but being left in a condition of extreme deafness, with excessive catarrhal and scrofulous discharges from both ears and nose, and such soreness of the head and ears that he could scarcely bear his mother to bathe him. He had apparently lost, too, his mental capabilities. He could learn simply nothing at school, and we were obliged to withdraw him therefrom. With sorrow we learned to look upon him as nearly an imbecile in mind and body. The state of affairs continued for several years, during which time we employed medical and without relief, and it was in this condition that we took the body to Mrs. Dr. Keck. We then had but little hope of obtaining benefit, but the relief experienced in the first month or two, convinced me of the correctness of the methods, and gave me sufficient confidence in the doctor to faithfully persist in following her directions. The grand result is a complete restoration of our boy to both physical and mental health, a very slight impairment of the ear only remaining, which is yielding slowly and surely to the continued treatment. He now attends school and learns with astonishing rapidity. It is altogether a subject for heartiest congratulation. In view of these facts I certainly take pleasure in strongly recommending Mrs. Dr. Keck. I would also add that during the doctor's temporary absence from the city, my son has received adequate attentions at her office from competent physicians.
W. R. HARRIS, 225 Elizabeth street.

IS IT IGNORANCE —OR— KNAVERY?

Some of our competitors are constantly trying to mislead the unsuspecting by quietly whispering in their ears, the sophistical theory, that large expenses necessarily enhance rather than cheapen merchandise. But that is fallacious, because all depends on the amount of business done in proportion to expenses

One favorite expression is: Look at their expenses, but they never tell them of the magnitude of our sales. So we will do so for them.

LINN & SCRUGGS retail more goods than all six dry goods stores in Decatur

They are not obliged to pay THE RENT of SIX STORE-ROOMS Nor the INSURANCE and TAXES on SIX stocks of goods. Nor as much for clerk hire as these six stores would aggregate Nor are our incidental expenses near so great as these six stores. But more than all, LINN & SCRUGGS are not obliged to support EIGHT or TEN families. Nor divide the profits between EIGHT or TEN PARTNERS—as is the case with these SIX STORES—all of which would make a difference of twenty-five or thirty thousand dollars a year in favor of LINN & SCRUGGS.

But this is not all. LINN & SCRUGGS, in view of their large purchases from first hands, save from twenty five to thirty thousand dollars more a year, which, added to the amount saved in their expenses, will make a difference of FIFTY or SIXTY THOUSAND DOLLARS A YEAR, which amount LINN & SCRUGGS save to those who purchase their goods of them.

If there be any to dispute our reckoning, we should be glad to hear from them through the SAME MEDIUM we adopt.

It is easily understood how one farmer, cultivating 300 acres of land, can produce greater results than can six farmers, each cultivating 50 acres of land; and this represents our case exactly. And when we assert that those who do not buy goods of us stand with the class who pay fifty or sixty thousand dollars a year more for their goods than sold by us, we simply utter what we are prepared to prove

Our business is good all the year round, which enables us to keep our stock free of shop-worn goods and give to our patrons fresh new goods every day in the year.

While we offer a stock to select from, which for

Quantity, Quality, Variety and Price,

CANNOT BE EQUALED.
